

Creative Industries Courses in Information Technology

Qualification: Certificate II – IT Tools for new media
TAFE NSW Course No: 19056

New media is an emerging area which is a convergence of fine arts, design, media and information technology. New media utilises information technology developed software tools to produce digital media.

These tools range from Photoshop, Dreamweaver, Flash, Premiere through to open source and Web 2.0 technologies such as Podcasting.

Qualification: Certificate III - Media
TAFE NSW Course No: 19243

This course reflects the role of a skilled operator in the film, television, radio or digital media industries.

Completing this course will provide you with an understanding of basic film and media production with an emphasis on interactive media creation using computers.

There is a mixture of visual and screen design, video and photography theory. You will enjoy planning, storyboarding and editing your own movies, taking digital photographs and creating interactive media titles.
